PROFESSIONAL SUMMARY

Final-year Computer Engineering student with programming fundamentals in C++ and Python, hands-on SQL and database experience, and a completed full-time internship in business intelligence and reporting. Wrote SQL queries and built Power BI dashboards to support data-driven decisions, and contributed to full-stack academic projects involving APIs, databases, and cloud storage. Comfortable with structured problem solving and eager to learn new technologies on the job.

TECHNICAL SKILLS

Languages: C++, Python

Databases: MySQL (queries, joins, GROUP BY, aggregations), MongoDB

Data & Analytics: Power BI, Excel (Power Query), data cleaning & reporting

Application Development: React.js, Next.js, Node.js, Express.js, REST APIs

Technology Awareness: AI/ML concepts – LLMs, Retrieval-Augmented Generation (RAG), prompt engineering

Tools & Platforms: Git/GitHub, AWS S3, Vercel, Render, Chrome Extension APIs, Figma

EXPERIENCE

Suvria Enterprises

Data Automation & Analytics Intern

Jun 2026 – Aug 2026

Full-time,

- Wrote SQL queries – including joins, GROUP BY, and aggregations – to extract and analyze structured business data for reporting.
- Used Excel and Power Query to clean, transform, and prepare raw datasets for analysis.
- Built Power BI dashboards to visualize key business metrics and support data-driven decision-making.

PROJECTS

LessMissed – Usability Analytics Platform | *Next.js, MongoDB, AWS S3*

- Contributed to a usability-analytics platform connecting brands and consumers to collect real user behavior data, built on Next.js, React, and MongoDB.
- Set up AWS S3 storage for full-page session screenshots used in downstream attention analysis.
- Collaborated on a companion Chrome extension that captures five behavioral signals – gaze, click, scroll, cursor, and page visibility – from live browsing sessions.
- Built a client dashboard for project and task management and contributed to an engagement-scoring engine that converts raw behavioral data into actionable UX insights.

Ayurveda Wellness Platform | *MERN Stack*

[Live Demo](#)

- Contributed to a full-stack wellness platform featuring health assessments, doctor booking, and e-commerce functionality.
- Worked on Razorpay payment gateway integration for secure transactions and Role-Based Access Control (RBAC) across user and admin roles.
- Helped design backend REST APIs and MongoDB schemas to support booking, assessment, and product-catalog features.
- Deployed the application on Vercel with a live, publicly accessible link.

EDUCATION

K. J. Somaiya College of Engineering

B.Tech in Computer Engineering (Final Year)

2023 – 2027

Mumbai, India

POSITIONS OF RESPONSIBILITY

Team ETA (Autonomous Vehicle Team), KJSCE

Member

2024 – 2026

AR/VR Club (Team Vision), KJSCE

Member

2023 – 2024
